A Brief History of Malta

Malta's history is full of major events, bloody battles, and the overtaking of empires, given the land has been inhabited since 5,900 B.C.E.

In prehistoric times, **Neolithic people settled on these islands** and lived in caves. To survive, they fished and farmed on the land until a major drought took place. After this period, people wouldn't settle on the islands for another thousand years.

New settlers came to Malta around 3850 B.C.E. We still have remnants of these people on the islands as they built **grand temples that have stood the test of time**. Two of the most famous and worth-visiting UNESCO archaeological sites are [Ħaġar Qim](#) on the main island and [Ġgantija](#) on Gozo.

Fast forward a couple of thousand years to 700 B.C.E. in Antiquity, we see **the islands changed hands between the Phoenicians, Carthaginians, and Romans**.

There is heavy **Roman Catholic influence in Maltese history and culture**, which is hard to miss while visiting. In 60 A.D., it is believed that Saint Paul had a shipwreck on the island.

During the Middle Ages, **the Byzantine Empire took over, which eventually led to Malta's Arab period**. It was during this time that the language adopted Arab grammar and vocabulary. Today, Maltese is a mix of Arabic, Italian, French, and English.

Going into the 16th Century, we have the **iconic Knights of Malta, which protected the islands from the Ottoman Empire**. They established incredible churches and battled the Turks in 1565 during the Great Siege.

The territory has a long and brutal military history. With so many empires, people, and nations wanting control of the strategically located island, it's no surprise. **Even during World War II, Malta played a key role in fighting alongside Great Britain**.

The Knights remained in control of Malta until 1798 when Napoleon Buonaparte sought refuge on his Egypt expedition. The land remained **under French rule until 1800** when Malta agreed to become a British Territory.

To this day **you will see British influence on the island**; from the iconic red telephone booths and postal boxes to driving on the left side of the road to large English breakfasts served in restaurants and cafes.

Malta claimed **independence from Britain in 1964** and was accepted into the European Union in 2004.

And the rest is history!

Malta's Culture Today

Now that you have some base on Malta's history, let's see how it has influenced the culture today.

With so many different people and cultures melding together throughout history, **Malta's current culture is definitely something to be admired**. You'll witness a mix of Latin European, British, and Semitic influences in the culture today.

There is still a **strong religious presence in the culture with traditions** and beliefs deeply rooted in Malta's residents.

However, there is also **a sense of modernity**. This is a country where you will see business people making deals and pushing the economy forward or **digital nomads sitting on their laptops at cafes all within ancient and historic cities**.

But despite the hustle, there is still time to find relaxation and balance in life.

As with many destinations, there are set travel seasons. During these seasons you will see changes in the number of tourists and accommodation prices.

High Season (June to August)

The time of year when you will find the most tourists and visitors in Malta is from June to August. This is prime vacation season when the weather is at its warmest.

During this peak season, you'll find restaurants and beaches crowded with tourists and hotel and Airbnb accommodations higher than the rest of the year. However, this is when you will experience the warmest and best Malta weather, perfect for soaking in the sun near the sea or taking a day trip on a boat to see the Blue Grotto or jump into the Blue Lagoon.

Shoulder Seasons (March to May, September to November)

For six months out of the year, Malta is an incredible place to live as a digital nomad. During the shoulder seasons, you'll still get to enjoy optimal weather, partake in water sports, relax on the beaches, and experience cultural festivals, all without the high prices and crowds of tourists of the peak season.

Low Season (December to February)

You'll find that Malta grows fairly quiet during the winter months, but that doesn't mean it isn't a great time to visit or live there. The temperatures do drop to be a bit milder than the rest of the year, but they are still quite enjoyable.

Malta Public Transport is one of the best services you'll find. It's efficient, typically on time, and has frequent and convenient routes traveling throughout the island.

You'll find **many bus routes and stations in the major cities**, such as Valletta, Sliema, and Bugibba. You will also notice bus stops in seemingly remote places, taking residents and visitors to unique sites.

Residents and visitors can obtain these cards at kiosks near bus stops and stations or from an approved vendor.

Ferry Routes

To save time getting from city to city, you may consider taking a ferry. While there are some destinations that require you to ride a ferry, such as Gozo, other destinations are simply faster and more convenient.

Valletta Ferry Services

[Valletta Ferry Services](#) is probably the **most used service to get from city to city** in Malta. They have two routes that leave every 15 or 30 minutes depending on the season.

These two routes are Sliema - Valletta, and Valletta - Three Cities. **A single-ride ticket is just 1.50€ and a roundtrip ticket is 2.80€.** You can purchase weekly, monthly, and three-month ride passes for further discounts.

Getting to Malta's sister island, Gozo, has never been easier. In just **45 minutes, you can travel from Valletta to Gozo** on the recently introduced [Gozo Fast Ferry](#) service.

You can purchase your ferry tickets online, through the app, or from vendors for just **7.50€ per ride**.

It's important to note that this is just a passenger ferry and cars are not allowed.

Gozo Channel

The traditional method to travel to Gozo is from the Cirkewwa ferry port. This trip is just 25 minutes and will take you to Mgarr port in Gozo. It makes daily trips to and from Gozo and leaves frequently throughout the day. You may also bring a vehicle with you on this passenger ferry.

The unique feature of taking the [Gozo Channel ferry](#) is that you **only pay for your ticket when you leave Gozo**. You can purchase these tickets from the port station or at a kiosk if you are bringing a car.

A single passenger ticket is 4.50€ or 15.70€ for a car and driver. Passengers may also bring a bicycle, motorcycle, or trailer on the ferry for additional fees.

Malta's towns and cities are **very walkable**. In just 20 minutes you can walk across an entire city or town. In fact, **you can easily walk from town** to town and not even realize it, such as from Gzira to Sliema to St. Julian's to Paceville.

Victoria, Gozo's main city, is also very walkable. However, it's important to note that you will need to rely on public transportation more in Gozo than on the main island as the towns are much smaller and are further from each other.

How to Find Accommodations in Malta

When you decide to live in Malta as a digital nomad, it doesn't always make sense to stay in **hotels as they can get pricey** depending on the time of year you plan to come.

If you're planning to stay for a couple of weeks up to a month, it's a good idea to **check [Airbnb](#) or [Vrbo](#)** for comfortable accommodations.

However, if you're planning to stay for a longer period of time, such as three months to a year, it's **best to find a short-term lease** to rent an apartment.

There are two ways to find long-term accommodations.

You can search on your own using online listing sites or the Facebook Marketplace. You may also benefit from posting in local Facebook groups asking about vacancies.

You can work with a real estate agent to help you find the perfect rental property. They will act on your behalf and make sure you're renting from a reputable landlord - taking away stress and opportunity for mistakes during the leasing process.

Coworking Spaces

One of the best things a digital nomad in Malta can do is find a **coworking space where they can be productive and network** with fellow remote workers. It's also a place where you can count on **extremely reliable and fast wifi**, one of the major benefits of using a dedicated coworking space.

You'll find a handful of coworking spaces throughout Malta, **particularly in the cities of Sliema, Valletta, Gzira, Mosta, and St. Julian's.**

These coworking spaces often offer daily or monthly membership passes, which give you access to hot desks and the rest of the space's amenities. You may also find **monthly packages for a dedicated desk** or even a private office if your work requires it.
